

# Euromed Management Ecole de Management

## PROFILE

Euromed Management, Ecole de Management (formerly Groupe ESC Marseille-Provence) has an enrollment of 3150, of whom 35 percent come from outside France. The faculty includes 68 full-time professors, of whom 40 percent are from outside France and 76 percent hold a PhD. Euromed's board of trustees includes representatives of some of the world's leading firms - such as AXA, IBM, Sodexo, CMA CGM, and HighCo.

Since 2002, Euromed Management has been perfecting an educational approach based on the France's renowned *Grande Ecole* model but drawing vitality and originality from the high-stakes game of globalization. Already recognized as one of Europe's best business schools, accredited by EQUIS and AMBA, Euromed Management is developing a modern Euro-Mediterranean vision dedicated to helping firms meet the challenges of tomorrow.

Our positioning is built around key values that underpin management decisions:

- Recognition of the need "to manage diversely" rather than "to manage diversity"
- Long-range vision
- Affirmation of the complexity of reality
- A holistic approach to management.

Encouraged by the early success of its approach, Euromed Management launched the **Responsible Management Network**, which brings together representatives of firms, institutions, civil society organizations, and foreign academic partners to confront and surmount problems of sustainable development and corporate social responsibility.

Euromed Management's strategic goal is to become the benchmark institution for postsecondary management education in southern Europe.

### Major fields of study

Euromed Management offers a wide range of programs: undergraduate degrees, master-level programs, MBAs, and continuing education. Examples include the **Programme ESC, CeseMed, the financial management program, various professional masters, the international MSc in management, and the World Mediterranean MBA, a flexible part-time program.**

All Euromed programs are open to international students. Students may be admitted on the strength of their performance on the entrance exam or by submitting an application that demonstrates outstanding academic accomplishments.

### Research

The goal of the research faculty of Euromed Management is to establish the institution as the leader in Euro-Mediterranean business education, with a reach extending far beyond the region. The future will match that vision only if diversity rests on a coherent foundation of communication, common values, and mutually beneficial exchanges. Euromed is proud to lead in building that foundation.

In 2007, Euromed Management established its first chair in sustainable development.

### Strengths

- A board of trustees composed of corporate leaders; cutting-edge computer equipment; a pedagogical approach based on "learning by doing." Plus assistance in locating internships and housing and a career placement service—all right on campus.
- An approach to teaching in which diversity is considered as a source of alternative management practices.
- 9,000 square meters of buildings equipped with Wifi, a virtual library, and a campus network.
- New buildings and classrooms and a new information system—just some of the factors that enable Euromed Marseille to offer the epitome in modern, personalized instruction.

### Location

South of Marseille in the Luminy Science and Technology Park; 3 hours from Paris by train; close to Italy and Spain, in the heart of Europe's Mediterranean region.
